

## **HANDS-ON SYMMETRY USING ZOMETOOL**

Paul Hildebrandt

*Address:* Zometool Inc., U.S.A.

Zometool is all about hands-on learning and fun. Numbers related to 2-, 3- and 5-fold symmetries become colorful 3-dimensional spirits under the influence of the Divine Proportion, and open up a universe of creativity, math, science, art, engineering through individual and group projects. If you haven't experienced Zometool, it's an opportunity that shouldn't be missed.
